Professional Summary

Analytical and detail-oriented Computer Science graduate with strong skills in Python, SQL, Excel, Power BI, Tableau, and data visualization. Experienced in data cleaning, dashboard creation, and predictive modeling through academic and self-driven projects. Skilled at transforming raw data into actionable insights to support business decision-making. Seeking an entry-level Data Analyst role in a reputed MNC.

Technical Skills

Programming: Python, SQL
Data Analysis: Data Cleaning, Data Visualization, Exploratory Data Analysis, Predictive Modeling
Tools: Excel, Power BI, Tableau, Pandas, NumPy, Matplotlib, Scikit-learn
Soft Skills: Problem Solving, Analytical Thinking, Communication, Teamwork

Projects

Google Play Store dataset using Python | Data Analyst Intern | Elevance Skills – India 2026

➤ Analyzed and cleaned datasets using Python (Pandas, NumPy) and created visualizations with Matplotlib to identify trends. Developed basic data analysis skills and generated insights for reporting and decision-making.

AI-Based Robbery Behavior Prediction Model 2025

- Developed a predictive model using Scikit-learn to analyze robbery behavior patterns from crime datasets.
- Applied feature selection and data transformation techniques to improve classification accuracy.
- Visualized analytical findings using Matplotlib for decision-making support.

Traffic Sign Detection for Autonomous Vehicles 2024

- Built a neural network-based traffic sign detection system for Indian road conditions.
- Improved traffic sign recognition accuracy using image preprocessing techniques.
- Worked with machine learning concepts and dataset training for real-time detection.

Education

Malla Reddy College of Engineering (MRCE) 2021 – 2025

Bachelor of Technology (B.Tech) in Computer Science Engineering

Certifications

- Deloitte Australia – Data Analytics Job Simulation
- Accenture Australia – Strategy Consulting Job Simulation
- Accenture Australia – Technology Consulting Job Simulation
- Deloitte Cyber Job Simulation
- Data Analytics Essentials

Achievements

- Developed multiple real-world data analytics and AI-based academic projects.
- Strong understanding of data visualization and business analytics concepts.
- Continuously improving technical and communication skills through self-learning and hands-on practice.
